

May 27, 2026

Dear Editor(s),

I have no conflicts of interest to declare. The research was supported by the Knobloch Family Foundation. I have previously served on the science advisory committee for the United States Bureau of Economic Analysis (BEA). I have consulted for the World Bank in the past, including on the 2024 CWON report. I do not view these as conflicts of interest.

Sincerely,
Eli Fenichel
